Subject: EPA Water Quality Sampling - Consent for Access
Access Request and Consent for Access Form WQ Sampling - Watts 04212015.pdf

Dear Mr. Watts,

Thank you for your permission to collect water quality samples from a sampling location located on your mine claim near Silverton, Colorado in 2014. EPA is planning on collected additional rounds of water quality sampling in 2015. We would like to get consent to access your property again in 2015 to collect these water quality samples. I left a voicemail message for you yesterday, regarding this request.

I've attached a request letter and consent for access form. If you would please, sign the consent form and either email or mail the signed for back to me, we would appreciate it. If you have any questions, please let me know.

Thank you for your continued support in our sampling efforts in the Silverton area.

Liz
